

Ridgway Tells Congress Huge Soviet Army On War Footing

Red China's Air Strength Can Be Tripled

WASHINGTON, April 25 (AP) — Military leaders have told Congress the mammoth Russian army is virtually on a war footing and that Red China's air force could be doubled or tripled "overnight" by the Soviets.

The reports were made to a House Appropriations subcommittee at secret sessions last February but were not made public until today.

Assessing the strength of the Russian army, Gen. Matthew B. Ridgway said it has received new atomic warfare training and is equipped and disposed to undertake a major war with little warning.

The Army chief of staff described it as the most powerful land force in the world, "in an excellent state of combat readiness."

Gen. Nathan F. Twining, Air Force chief of staff, reported on the air potential of the Red Chinese.

He told the subcommittee Communist China's "rapidly expanding system of bases . . . gives the Communists the ability to move in aircraft rapidly from the Soviet Union."

"We cannot ignore their capability to double or triple their air strength in the Far East overnight," Twining said.

Another report made public showed that the U. S. Air Force has intensified its personnel security program over the last two years.

As a result, Maj. Gen. J. F. Carroll said, 260 security risk cases were filed against uniformed personnel in 1953 and 1954, and 27 officers or airmen were discharged on security grounds. Fifty-nine men were cleared during the same period, Carroll said. He is director of special investigations for the Air Force.

The screened record of the subcommittee's proceedings also disclosed:

1. Ridgway estimated the Army eventually will need 200,000 specially trained volunteers annually to build up the planned strength of the reserve.

2. He reported Communist ground forces in Korea have been reduced to a 1 1/2 to 1 numerical superiority over South Korean and U. N. troops.

3. Secretary of the Army Stevens said the Army now has enough ammunition to hold its own in a "shooting war" until production lines get moving.

4. Army estimates fix the value of fighting equipment stored in this country and abroad at 20 billion dollars.

"The Soviet army," Ridgway told the legislators, "is continuing its program of modernization and reequipment."

With Soviet help, he said, "the other Communist bloc armies in Europe and Asia are also undergoing modernization programs."

"Although their rate of progress is much slower than that of the Soviet army, they are gradually being molded into effective modern forces."

Ridgway said the U. S. Army is "engaged in a program of intensive studies and field tests" to determine changes in tactics required by nuclear warfare.

These have not been completed, he said, but first results indicate the necessity of dispersing men across "a zone of battle" (measured) not in terms of 30 to 50 miles, which we have had so far, but in terms of 150 to 200 miles.

"We continue to predict that future war with new weapons may well require more, rather than fewer men, in ground operations."

Work is progressing, he said, "on an improved surface-to-air (guided) missile which, if successful, will contribute much" to defense against low altitude planes—a high priority project in the Army's role of anticraft defenses for this country.

Ridgway said work also is continuing "on a longer range missile which will allow maximum exploitation of available destructive effect in new and improved warheads."

Truman Attacks Ike Power Policy

NASHVILLE, Tenn., April 25 (AP) — Former President Harry S. Truman charged today that the Eisenhower administration went into office with the idea of "destroying the entire public power program."

The former President warned Tennesseans to fight for the Tennessee Valley Authority "and other things good for the common man or lose all we've gained in the past 20 years."

Proves He's Old Enough To Drive

SALT LAKE CITY, April 25 (AP) — Dale Ainge, 3, asked his mother if he could take the car and get some gas.

Mrs. Ellis L. Ainge replied he was too young to drive and continued with her housework.

Minutes later came a crash. With Dale at the wheel, the car had rolled backward and smashed a \$150 plate glass store window.

PRECIOUS CARGO yesterday for Mrs. Theodore Hoffman was the shipment of poliomyelitis vaccine. Cartons shown here in background contain vials of vaccine. First Youngsters Get Shots Today

INOCULATION OF MONROE COUNTY first and second graders starts this morning.

Salk vaccine shots are scheduled for Delaware Water Gap, Coolbaugh, East Stroudsburg, Barrett, Paradise and Middle Smithfield schools today.

First, Second Graders Only Ones Covered

FIRST AND SECOND graders—and only pupils in those grades—are included in the free Salk vaccine shots being given starting today in Monroe County schools.

There is nothing your doctor or county officials can do about this regulation, a spokesman pointed out yesterday. So don't call them and try not to complain, the spokesman added.

The National Foundation for Infantile Paralysis is paying for the vaccine. Monroe County doctors and nurses are contributing their time—absolutely free of charge—to make the first and second grade inoculations possible.

When the Salk vaccine becomes available at your doctor's office he will be able to give the Salk shots to all your other children or to any members of your family.

But right now—the important thing to do is to give the vaccine as quickly as possible to the children who are most susceptible to polio, officials emphasized.

These children, according to the National Foundation, are the pupils in the first and second grade categories.

Today's inoculations — and all those given to first and second graders this week — are paid for by the foundation in an effort to check the ravages of polio in the most vulnerable spot.

Assemblymen Argue Merits Of Tax Bill

HARRISBURG, April 25 (AP) — The Leader administration's classified income tax plan formally reached the Legislature tonight to the clamor of outspoken Republican criticism.

There wasn't a word of Democratic fanfare as Reps. Albert S. Readinger, House Democratic leader, and H. G. Breth (D-Clearfield) signed their sponsorship to the bulk bill designed to raise 411 million dollars.

But it wasn't long before Rep. Charles C. Smith, House Republican leader, let loose with a blast at the Democrats for "trying to put across the greatest fraud in the history of the Commonwealth."

Readinger, defending the income levy as the key to a 621 million dollar tax program, conceded that the tax program was unpopular.

"But before it is acted upon the public will be given the full information on why the money is necessary."

The bill also provides that withholding of income tax from wages and salaries would start July 1. All other phases of the income levy would be retroactive to last Jan. 1.

Meanwhile, the Senate received administration-backed legislation to sell the Curtiss-Wright Corp. a large tract of state forest land in north-central Pennsylvania for construction of a research center.

A Senate committee gave immediate approval of the bill which in the long run is expected by the administration to provide thousands of jobs in the Clearfield-Renovo area.

Miles Horst, Republican state chairman, joined the tax debate by saying it would be "futile" for Republicans to offer an alternative tax program since Democrats control the House where all revenue measures must originate.

Horst's statement was in reply to one by Sen. Joseph M. Barr, Democratic state chairman, that nowhere in Republican attacks on the Leader program "is there any emergency proposal for an alternative tax plan."

"Whatever happens to the Leader 'soak-everybody' tax program, the outcome will not change the responsibility for proposing new taxes one iota," said Horst.

Readinger said that refusal of the Republican leadership to offer an alternate tax plan "is not surprising since Republican bosses always have sidestepped the need for suitable taxes to cover politically-inspired appropriations."

If a so-called "soak everybody" tax is now required to pull Pennsylvania out of a Republican-induced financial hole, the opposition party, by its long record of deficit management and debt accumulation, is solely responsible," Readinger said.

Readinger told the House that hearings with department heads on (Continued on page three)

Nationalists Disappointed Over Conference

TAIPEI, Tuesday, April 26 (AP) — Chinese Nationalists advocating an uncompromising stand against communism today gave the impression of disappointment over high level U. S. talks with Chiang Kai-shek.

Walter Robertson, assistant secretary of state, and Adm. Arthur W. Radford, chairman of the Joint Chiefs of Staff, were leaving for Washington later in the day barring a last-minute change of plans.

There was nothing firm to go on, because their talks with Chiang Sunday and subsequently were a well kept secret.

It was noted, however, that neither took any pains to deny politically speculation that they might have come to propose the Nationalists abandon the offshore islands of Quemoy and the Matus.

House Votes Assessment Postponement

HARRISBURG, April 25 (AP) — The House tonight amended a proposal to give 59 counties additional time to establish a uniform real estate tax assessment system by cutting in half the suggested two-year deadline extension.

Rep. Stephen McCann (D-Greene) offered the change to make the new deadline Jan. 1, 1958 rather than 1959 as in the original bill. The amendment was accepted by voice vote and the bill advanced for possible final passage tomorrow.

The bipartisan proposal would affect all but Philadelphia, Allegheny, Berks, Delaware, Lackawanna, Luzerne, Montgomery and Westmoreland counties.

The Senate approved the two year deadline extension, from 1957 to 1959, last month.

McCann offered the House no reason for the amendment.

Atomic Blast Postponed By Strong Winds

SURVIVAL CITY, Nev., April 25 (AP) — This atomic test town received at least 24 hours of grace today when whistling winds forced postponement of tomorrow's scheduled nuclear blast.

Test officials were hopeful that the weather picture might change to allow the explosion to be set off Wednesday from a 500-foot tower near this model city on Yucca Flat in the largest civil defense test ever held.

Two Monroe County men, both leaders in Civil Defense work, are in Yucca Flat to witness the explosion. They are Judge Fred W. Davis, county C.D. director, and Jack Anderson, director for the Eastern Pennsylvania area.

Forecast wind speeds of 70 m. p.h. at the expected height of the atomic cloud posed a potentially serious radiation fall-out problem to a number of Nevada communities.

Dr. Alvin C. Graves, chief tester for the Atomic Energy Commission, said the tricky currents might have deposited the radioactive particles on Alamo, Elgin, Panaca and Pioche to the northeast.

Or they could have reversed 90 degrees and dumped fallout on Las Vegas, Boulder City, Henderson and nearby Indian Springs. All these communities are in Nevada.

The postponement left civil defense officials with a housing problem. Las Vegas is packed to overflowing with incoming conventions and sports fans flocking to a golf tournament and the Archie Moore-Nino Valdes heavyweight fight next week.

Admits Slaying

NEWPORT, R. I., April 25 (AP) — Edward Andrews, a 23-year-old neighbor, arrested on a policeman's hunch, today admitted the weekend rape slaying of 86-year-old Miss Susan B. Franklin, Newport Public Safety Director Francis L. Fitzgerald said.

United States Bars Talks With Chinese Unless Reds Drop Belligerent Attitude

WASHINGTON, April 25 (AP) — The United States was understood today to have decided against any direct talks with Red China unless the Communists make more conciliatory gestures.

That would throw the question of a Far East settlement back to the United Nations, where Red China has a standing invitation to appear in debate on the Formosa issue.

Secretary of State Dulles, back from five days at his island retreat in Lake Ontario, spent the day catching up on this and other world problems. He prepared to answer questions about it at his news conference tomorrow.

President Eisenhower conferred with Dulles for 40 minutes late today.

Dulles told reporters the meeting was devoted to "catching up together" on developments since he last saw the chief executive a week ago yesterday.

The State Department already has laid down two prior conditions for meeting with Red China: Nationalist China would have to be at the conference as an equal participant, and there would have to be some show of Red sincerity.

Red China's Premier Chou En-lai gave a boost to hopes for a peaceful Far East settlement last week, then dashed them somewhat yesterday.

Allied Foreign Ministers To Meet May 8 To Discuss Details For Big Four Talks

WASHINGTON, April 25 (AP) — Secretary of State Dulles will meet with the British and French foreign ministers in Paris May 8 "to discuss concrete plans" for later Big Four conference with Russia.

"The three governments earnestly hope that a four-power conference can meet as soon as possible," the State Department said.

In announcing this today, the department gave no official word as to whether the Big Four meetings might be at the foreign ministers level, or higher.

However, a top official said what Dulles has in mind is a Big Four meeting of foreign ministers first, perhaps to be followed by a heads-of-state conference.

Russia's Premier Bulganin dropped a remark Saturday in Moscow that he was interested in such a high level meeting, telling newsmen to "ask Eisenhower and Eden about the date."

If the foreign ministers' meeting made a promising start in settling the East-West deadlock over Germany's future, it was said authoritatively, President Eisenhower would be prepared to meet with Bulganin, British Prime Minister Eden and the French premier.

In advance of the American-British-French meeting in Paris, the three Allies agreed to send teams of lower ranking diplomatic experts to London Wednesday to chart the steps to be followed in arranging a later meeting with the Russians.

At a later news conference, a State Department spokesman emphasized Chancellor Adenauer's West German government will be fully consulted at both London and Paris by the Big Three foreign policy chiefs in discussing anything directly involving the future of the divided country.

Authorities familiar with Dulles' views said the secretary would seek to get American-French-British agreement in Paris about the specific agenda of topics to be discussed at any conference with the Soviets.

They said this agenda, in his view, should concentrate exclusively on European deadlocks — such as Germany and over-all European security problems.

Russia would be asked to agree in advance to an agenda, thus ruling out any free-wheeling debate on Far Eastern and unrelated problems.

German Beer, 1939 Vintage, Hauled In By Fishing Crew

NEW BEDFORD, Mass., April 25 (AP) — Even in this old-time textile and whaling city, where yarn spinning is nothing new, people sat up today and said, "How's that again?" when they heard the story brought in by the crew of the scalloper Sea Hawk.

They were 50 miles southeast of Point Pleasant, N. J., the crew averred, when something happened that couldn't have been pleasant: They began hauling in cans of beer — 360 of them.

But a stronger angle of the

World Cruise To Point Up U.S. Peace Aims

NEW YORK, April 25 (AP) — President Eisenhower today unveiled plans for a good will world cruise by an atomic powered peace ship. His plan was a takeoff in reverse on the "big stick" policy of nearly half a century ago.

"Visiting the ports of the world," he said of his proposed atomic merchant ship, "it will demonstrate to people everywhere this peacetime use of atomic energy, harnessed for the improvement of human living."

The nation already has an atomic submarine afloat and a second in the works. However, Eisenhower chose to dramatize peace rather than might with an entirely new atomic merchant ship to carry America's message to the world.

Thus he acted in reverse of the historic 1967 gesture by President Theodore Roosevelt, who dispatched a battleship fleet around the world to focus attention on America's fighting power.

President Eisenhower disclosed his latest atomic-for-peace plan at the annual luncheon of The Associated Press at the Waldorf-Astoria Hotel.

Flown here from Washington for the occasion, the President's plane, the Columbine, had to land on instruments because of fog and a cold drizzle that gripped the city. The takeoff for the return to Washington this afternoon also was on instruments as the fog persisted.

Eisenhower took the occasion to plead for his proposed extension of the Reciprocal Trade Act, cutting tariffs 15 per cent over the next three years. He declared:

"Two-way trade, I believe, is a broad avenue by which all men travel toward a golden era of peace and plenty."

Early in his 4,000-word text, the President sprang his idea for an atom peace ship in these words:

"We have added to the United States program for peaceful uses of atomic energy an atomic-powered merchant ship. The Atomic Energy Commission and the Maritime Administration are now developing specifications. I shall shortly submit to the Congress a request for the necessary funds, together with a description of the vessel."

"The new ship, powered with an atomic reactor, will not require refueling for scores of thousands of miles of operation. Visiting the ports of the world, it would demonstrate to people everywhere this peace-time use of atomic energy, harnessed for the improvement of human living. In part, the ship will be an atomic exhibit, carrying to all people practical knowledge of the usefulness of this new science in medicine, agriculture and power production."

"In every possible way, in word and deed, we shall strive to bring to all men the truth of our assertion that we seek only a just and lasting peace."

Eisenhower recalled his appearance two years ago before the American Society of Newspaper Editors. On that occasion, he said, he pledged his administration to "an unending search for a just peace as a fixed and abiding objective."

In line with that search, he went on, came his proposal for an international pool of fissionable material for peaceful research — the so-called atom-for-peace proposal.

Along the same line, also, the President said, was his recent offer to share with other nations of the world, including Soviet Russia, the formula for the new Salk polio vaccine.

President Applies For Membership In 'Truth' Press

NEW YORK, April 25 (AP) — President Eisenhower referred today to former President Harry S. Truman and leading Democrats who complain of a "one party press."

Departing briefly from his prepared address at the annual luncheon of the Associated Press he said:

"I have heard you referred to as a one party press."

"If that is true, I do trust that the purpose and aim of your party is to spread the truth. If that is so, I apply for membership."

Cancer Crusade In Last Week; Needs \$1,588

THE 1955 Cancer Crusade is still far below its \$5,400 quota. Only one week remains in Cancer Control Month.

According to figures released yesterday by John Watt, treasurer of the local Cancer Society unit, the amount collected so far in the drive is now \$3,811.43.

Not all this amount has been solicited during the actual April month-long drive, however. About \$600 had been turned in to the society during the year.

Cancer Control month — during which time the Cancer Crusade is supposed to be carried out — began on April 1. It continues until the end of April.

An organized house-to-house visit by women volunteers was scheduled for April 18. In most areas it was carried out on that date.

Workers in Stroudsburg and East Stroudsburg collected nearly \$2,090 in their residential visits.

In some other areas of the county the house-to-house calls were made last week and are now being carried out.

Any person who wishes to contribute to the Cancer Crusade who has not been contacted, as yet, may mail his contribution to the society office at 715 Sarah St., Stroudsburg.

The crusade needs \$1,588.57 to meet its quota.

East Stroudsburg C. D. Police To Meet Tonight

ALL EAST Stroudsburg members of the Civil Defense auxiliary police and wardens have been asked to attend a special meeting to night at 7:30 at the Day St. firemen's building. The meeting was called by J. Fielding Vollers, CD director for East Stroudsburg.

Vollers has been confined to the General Hospital due to illness but continues his interest in Civil Defense work. His duties are being handled by various assistants at the present.

The main plan of the special meeting will be to list the duty stations for police and wardens in order that the unit be prepared for the next Civil Defense alert.

DR. HAROLD S. Pond will be out of town, April 28, through May 5, inclusive. Adv.

Capt. Bechtell To Head E. S. Plane Spotters

CAPT. WILLIAM Bechtell, commanding officer of Stroudsburg CAP Squadron 805, has been appointed post supervisor of the East Stroudsburg Ground Observer Corps. It was announced by the local Civil Defense organization yesterday.

The appointment was made by Earl Palmer, Ground Observer chief of Monroe County. The East Stroudsburg Post will be located at the American Legion building.

Capt. Bechtell is considered well qualified to serve as officer in charge of the post. He is a veteran of eight years of the U. S. Marine Corps in aviation with service in the Korean conflict and World War II. Bechtell was active in such areas as the Pacific, China, Japan, Europe and the Caribbean. The post supervisor plans an active campaign to enroll ground observers and place the local post on a well activated basis.

Ground Observer Corps Posts Schedule Exercise On May 1

THE GROUND OBSERVER Corps posts of Monroe County will participate in a Ground Observer Corps Training Exercise to be conducted by the Air Force on May 1, it was announced yesterday by local Civil Defense headquarters. The alert will cover certain areas of eastern Pennsylvania.

Major Robert P. Loughrey, State coordinator for the U. S. Air Force Filter Center, has stated the purpose of the exercise is "to increase the operational efficiency of the Ground Observer Corps and to develop the potential of the GOC to the highest degree possible by providing a realistic training exercise."

Earl Palmer, Ground Observer chief for Monroe County, will be notified directly by the Harrisburg Filter Center concerning the actual beginning of the exercise. All observation posts within the county will then be informed of the alert.

Volunteers interested in assisting in the GOC program may do so by contacting Palmer at 446-R.

you can beat the heat with an electric

air conditioner

Gone are the days when summer heat and humidity just had to be accepted. Today you can control your own weather. With modern air conditioning you'll feel better, work better, rest better.

Important, too, is the fact that all these benefits are within easy reach. Installing a modern room air conditioner is simple. It requires no piping connections. The cost of operation is but a few pennies a day. And larger installations for restaurants, barber shops, offices, retail stores and other businesses can be paid for quickly out of increased profits.

Plan now to beat the heat. Get the facts on how easily it can be installed.

At the flick of a switch... **air conditioning gives you four benefits**

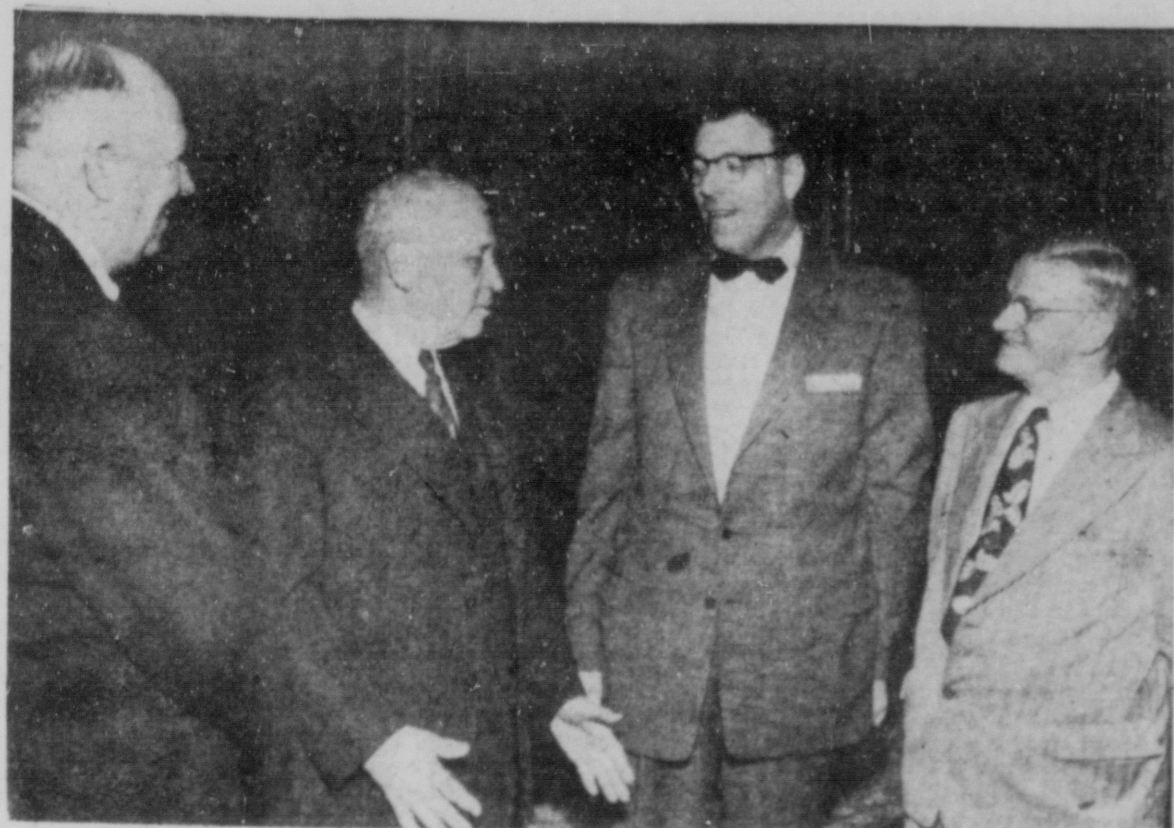

1. **Cool Air**... at comfortable, healthy temperatures.
2. **Lower Humidity**... eliminates that "stuffy", oppressive feeling.
3. **Clean Air**... filtered to reduce dust, smoke and pollen.
4. **Circulated Air**... assures pleasing year 'round ventilation.

Metropolitan Edison Company SUGGESTS YOU CONSULT YOUR AIR CONDITIONING OR APPLIANCE DEALER FOR COMPLETE INFORMATION.

in your home
Kitchen, living room, rumpus room, bedroom — any one or all can be delightfully cool and comfortable on the hottest day.

in your office
Test after test proves the same fact — employees work better, make fewer mistakes in an air conditioned office. No afternoon work "slump".

in your business
The cash register rings more often in the business that's air conditioned. Customer traffic increases. Makes shopping a pleasure.

LIGHT MOMENT BEFORE HEAVY THOUGHT. Principals at the Pocono Mountains Motor Club meeting last night had time for a few non-serious comments before settling down to brass-tacks talk about highways. In photo, left to right, are John S. Giles, president of the Pennsylvania Motor Federation; LeRoy Dengler, president of the PMMC; A. L. Wiesenberger, district engineer for the Lehigh region; and Claude Metzgar, district highways superintendent.

Dengler Renamed Auto Club President

Road Officials Tell Of Work Being Planned

R. LEROY DENGLER was re-elected president and nine members were named to the Board of Governors at the 28th annual meeting of the Pocono Mountains Motor Club at the Penn Stroud Hotel last night. Talks by state and district highway and motor club leaders also featured the well-attended affair.

Dengler was also one of eight selected to serve three year terms on the Board of Governors. The others were Russell Eshback, Henry Kresge, M. Eugene Leffler, Layton L. Rhodes, George Woolbaugh, Van D. Yetter Jr., and M. F. Crowe. John M. Crandall was named to serve for one term replacing the late Gerald P. O'Neill.

The speakers included Arthur L. Wiesenberger, new District 5 highway engineer with headquarters in Allentown; John L. Giles, president of the Pennsylvania Motor Federation and the Reading Motor Club; and Claude Metzgar, district highway superintendent for Monroe County. All were introduced by Dengler following his short talk.

Dengler announced the present membership of 2420 was the largest in history and showed a 19% gain in the past year. He said the club was about \$600 to \$700 better off financially than a year ago and had added equipment. The president stated the local unit rendered a larger percentage of service to outside units than most. He stressed the main aim of the club as working for safe driving in schools and on highways.

Wiesenberger was enthusiastic in discussing his new position in this district. He praised the state's motor clubs for "doing yeoman service in making the highways safer for the public." The engineer pointed out in working with the various motor club programs.

He stated that the 41,600 miles of roads in Pennsylvania were greater than the state highway mileage in any other state in the union and added it was greater than the combined total of the six New England states, New York, New Jersey, Delaware and Maryland.

Wiesenberger told local residents that 500 miles of that state total lie in Monroe County and explained the difficult tasks ahead for his department. He said they hoped to get to all improvements eventually and are now establishing a priority list.

The guest outlined the history of highway department and told of the "herculean efforts" needed to bring it up to date following World War II. The thruway connecting Allentown, Easton and Bethlehem was cited as an example. "We have a department and highway system of which we may be justly proud," he commented.

Wiesenberger said his office was planning to take care of as many improvements as possible on a limited budget but stated: "No matter what the scope of the program may be it will not be adequate to cover all." He added: "We have been surveying the roads in all six counties and are aware of all hazards, those requiring relocation, widening, surfacing etc."

The controversial Stroudsburg thruway was also mentioned. He told the Pocono residents plans are now being studied and will be completed when the best route is determined.

The new highway engineer urged the members to report all road hazards and other problems and stated: "I am confident that over the next four years we will execute a program which has been the realization of your dreams for a long, long time." His closing statement was: "I believe we will accomplish a program the like of which has never been seen."

Giles told the interested Motor Club group that increased membership would be its best move towards improvement for this area. The Motor Federation head promised: "If there's anything we can do for you, we're there to do it."

He cited the need and expense of more highways and gave the federation's aim as providing the "greatest good for the greatest number." Giles cited motor clubs as the best means of getting things done on the highways. He said the state groups are hoping to boost the membership over the million mark and told of a membership contest to be held with Ohio.

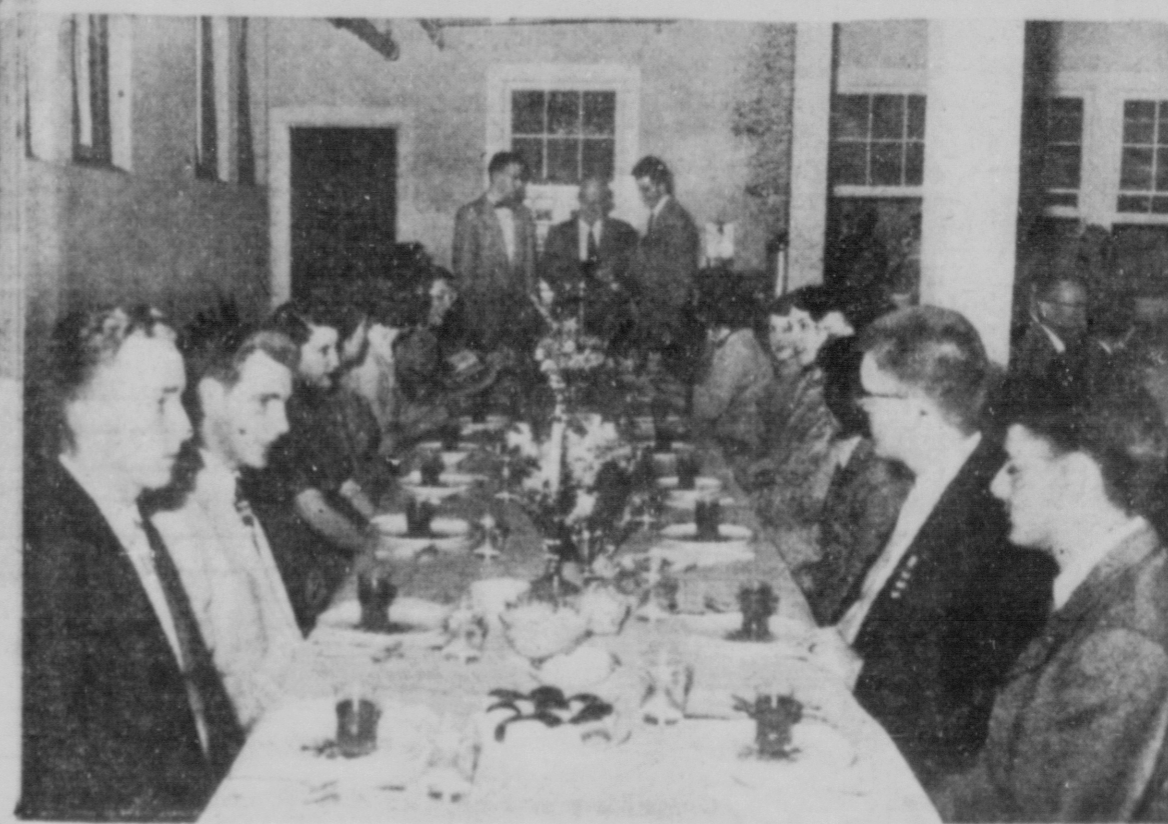

The Reading club leader held the automobile responsible for the greatest amount of recreation and said there was prophesy for bigger things in the Poconos with current talk of shortening the work week.

Metzgar assured the members his men would be ready for any problem and would always cooperate with the club. He closed by stating: "I can assure you that Monroe County will have the best roads in Pennsylvania in the next four years. They will be better and safer."

Crandall gave a report on the highway committee. He told of the excellent cooperation being received from state officials upon Motor Club requests. The chairman listed the current projects as the improving of direction signs near the Delaware Water Gap Bridge and better directional signs for the Poconos.

Hospital Board Works Out Terms Of Agreement For TB Society X-Ray Machine

THE MONROE COUNTY General Hospital board met last night at the hospital.

Terms of a final agreement between the hospital and the Tuberculosis and Health Society were worked out. The agreement pertains to the care and maintenance of a small-picture X-ray machine.

The X-ray machine was purchased and paid for by the society. It was installed in the hospital in January of this year for use by the society and the hospital jointly.

Each person who is admitted to the hospital is chest X-rayed on admission. A nominal charge of one dollar is made for each of these X-rays. This fee is enough to cover the cost of the X-ray plate and taking the picture, and no more, hospital authorities said.

The Tuberculosis and Health Society also uses the machine to carry out its own year-round chest X-ray program. All X-rays taken by the society are given without charge. The cost in these cases is absorbed by the society's own funds.

In other actions, the board made the following decisions:

A bronze plaque will be placed in the hospital lobby in honor of Mrs. Sybil S. J. Michener for her contributions to the radium fund at the hospital.

The plaque will read: "In grateful acknowledgment for the Sybil S. J. Michener radium fund."

Mrs. Michener has made a "tremendous" contribution in time and in funds to the establishment of the radium fund, a board member said.

Frank S. LaBar, president of the hospital board, appointed Merle C. Ostrom, Ben Josephson and James T. Kitson to a nominating committee to fill nine vacancies on the board. These vacancies will occur on June 1. They will be filled at the June meeting.

The board authorized Harry Smith, hospital superintendent, and Charles Swisher, his assistant, to attend the Middle Atlantic Hospital Convention in Atlantic City, N. J. on May 25, 26 and 27.

Announcement was made at last night's meeting that the Anna Logan Auxiliary has agreed to purchase a "MacKachern" obstetrical table (delivery table) for the hospital maternity ward.

The auxiliary agreed to the purchase with the sanction of the hospital's medical staff. Cost of the table is \$1,060. Members of the auxiliary voted in favor of the purchase at their recent monthly meeting.

One Pickup Saturday In Cleanup Drive

THE SPRING Clean-Up campaign starting Thursday and concluding Saturday will have only one pickup Saturday of refuse put out in boxes by residents of Stroudsburg.

Borough officials of both Stroudsburgs are cooperating by having their trucks and street crews pick up materials cleaned up from yards and around buildings.

Francis Brodhead, Stroudsburg street superintendent, said yesterday the trucks and crews will operate Thursday and Friday, but will make only one collection Saturday.

The single Saturday collection will be at 8 a.m. Citizens are urged to have boxed debris out in time for that early pickup so it will not be standing around over the weekend.

Former Local Resident Dies

BERWICK — Funeral services will be held today at 2 p. m. for Ralph Boone, 54, formerly of Stroudsburg, who died last Friday night at the V. A. Hospital in Wilkes-Barre. He had been confined to the hospital for one week and had been in failing health for the past nine months.

Boone had lived in Stroudsburg approximately a year and had been an early employee of Ronson Corp. The deceased had been a resident of Berwick prior to his death.

A World War II veteran with service in the Pacific area, Boone had been well known around the Stroudsburgs. He was the son of Mrs. Eva Boone and the late Aaron Boone.

Surviving are his mother, his wife, Martha, and one sister, Mrs. Madelyn Kelchner, all of Berwick.

Income And Outgo

Whether employees of the Post Office Department will get a pay raise this year depends on whether the President and Congress can reach agreement on the amount of it. Both houses of Congress have passed pay-raise bills which are more generous than the Administration proposal.

Even the Eisenhower plan, however, would cost about 166 million dollars a year. And the Post Office Department already is operating at a deficit.

Granted that the employees deserve a raise, it is the duty of Congress to raise the money to pay for it.

The increases in postal rates which Postmaster General Summerfield has proposed would help do that.

He has asked Congress to authorize a

four-cent charge for the ordinary letter, and moderate increases for newspapers, magazines and other printed matter.

The three-cent letter rate has been in effect since 1932, during a period when costs of other things have risen enormously. Public opinion polls indicate the American people think a four-cent rate reasonable, and we can assume they feel the same way about the other changes Mr. Summerfield has proposed.

The taxpayers must pay the difference, in any event, between what it costs the Government to carry the mail and what it collects in revenue. Making the Post Office Department pay its way simply would mean charging those who use the mails for the service. The goal is reasonable, and it can and should be reached.

Oh! Promise Me!

An interesting and highly important part of the great debate over the budget and tax program of Gov. George M. Leader revolves around promises.

While the debate seems to be less concerned with the amount of the budget, and more concerned with the Leader proposal for an income tax, the fact remains some are charging that Mr. Leader went back on his campaign promises of cutting expenses and avoiding an income or wage tax.

Others strongly maintain that conditions change and that candidates, once they take office, also discover a flock of problems which forces them to change with conditions. They declare that consistency is the bugaboo of small minds.

George Sokolsky Says...

Matusow May Have Been Resurrected By Communists To 'Get' Youthful Roy Cohn

Harvey Matusow is a self-admitted liar and boasts both his ability and his capacity. Not being a psychiatrist, I cannot testify as to his conduct but take it for granted that all men are somewhat peculiar and Harvey very much so.

Harvey has now set himself up as an expert in lying and may open an office some day to advise those who require guidance in the art for a fee. He might even become famous as the first man who lied with pride, lied with joy in his heart, testified on how perfect a liar he is under oath before Congressional committee and in a court of law. Why the Committee listens to him after he swore that he had perjured himself is difficult to guess, but I suppose that a record must be made for posterity.

Matusow and his mentors have decided that he must not stand alone; so he is trying hard to drag Roy Cohn down with him. The reason Cohn helped to send the Rosenbergs to the electric chair; he helped to send William Remington to prison; he exposed the espionage ring in the United Nations, etc., etc. The way to get even with Cohn is to try to make him look like Matusow. So Matusow is set up as a liar and Cohn is made to be associated with him to establish guilt by propinquity.

In a brief which the United States Attorney in New York, J. Edward Lumbard, presented

to the court in the case of United States v. Elizabeth Gurley Flynn, et al., appears the answer to Matusow's allegations concerning Cohn. In fact, Judge Edward Dimock upholds, in his decision in the case this point of view.

"According to Matusow, Cohn then began developing the false testimony with respect to the conversation with Trachtenberg. Matusow is uncertain as to when this false testimony was finally worked out in the form in which he testified, but he claims that the matter of the book and his conversation with Trachtenberg was discussed on numerous occasions with Cohn in the presence of other members of the prosecution staff and Agents of the Federal Bureau of Investigation."

"It has now been conclusively established that Matusow's contentions with respect to this portion of his testimony are falsehoods from first to last."

Further the brief says: "Matusow's statements that Cohn and other members of the prosecution staff knowingly or otherwise assisted him in preparation of allegedly false testimony concerning a conversation with Trachtenberg relating to the 'Law of the Soviet State' by Vishinsky are wholly belied both by the sworn testimony of all those who were at any time charged with his trial preparation as well as by contemporary documents dictated during the course of his preparation."

"This monstrous accusation that the testimony regarding Trachtenberg and 'Law of the Soviet State' was fabricated and

master-minded by members of the prosecution staff, one of the main points relied upon by the defendants at this hearing, now shown to be a complete falsehood, so permeates the Matusow hearing testimony as to render all of it absolutely incredible."

Again, Matusow is shown to make false statements concerning Cohn:

"Matusow claims that he first formulated the testimony with respect to this conversation with Charney (a defendant), which he now claims is false, on February 17, 1952 during a lengthy meeting with Cohn. The fact of the matter is that he had no such meeting with Cohn on that date or on any other date between their one hour initial meeting in the car on December 19, 1951 and the time Cohn took over his trial preparation in May 1952."

"The choice of a scapegoat in the person of Roy Cohn is too obvious a tactic to merit further comment. The charge of subornation relating to a conversation with Trachtenberg about the 'Law of the Soviet State' made in such great detail and upon the truth of which defendants rest dependents' claim for relief is utterly false. This lie foisted upon the Court permeates the entirety of Matusow's testimony at the hearing and renders it utterly incredible."

From all this it would appear that Harvey Matusow may have been resurrected by the Communists in an effort to get Roy Cohn in order to teach a lesson to others not to send spies like the Rosenbergs to the electric chair. Otherwise why did they pay him to exhibit himself as the complete liar?

SMOKE IN HIS EYE

My America

Technique Of Diplomacy Has Swung To Wide Extremes

My colleague, Brisbane, recently picked up what, to me, was a new and apt definition of a diplomat—a wit:

"A true diplomat is a gentleman who can tell you to go to hell in such a piecey way that you look forward to the trip."

You don't hardly ever see any of that kind around any more. Or if you do see one he isn't likely to be working for a country that can readily afford to tell anybody to go to hell.

There was a time, during the full between World Wars I and II, when I used to get surprised with old-school diplomats and their striped pants, their hand kissing, their Mona Lisa smiles and their syrupy, ambiguous phrases. When I saw a picture of one in a newsreel I often thought how satisfying it would be to slap the smirk off his face with a fried egg and say:

"Why don't you cut out the apple polishing, speak up like a man, say what you mean and mean what you say?"

In fact, I wrote more than one indignant piece to that general effect in my spillover days, though I can't say that I ever had a chance to give a bona fide diplomat the full treatment in person.

It seemed to me that most of the world's troubles (people thought the world had troubles in those days, too) stemmed from the deliberate efforts of alleged statesmen to conceal their real meaning behind a delicate embroidery of two-faced verbs and perfumed adjectives. What was needed, obviously, was straight, blunt talk that would lay bare the honest core of every issue so anybody and everybody could see and understand it.

That's what I thought then but I'm beginning to doubt that I was barking up the right tree.

In the years since then the world has heard a good deal of diplomat talk along the rough and ready lines many of us used to clamor for. Only a chump would say that it has improved matters appreciably.

One has a nostalgic yearning for the studied grace and honeyed language of old-time diplomacy after a certain number of years listening to dressed-up muleskinners cuss one another out over short-wave radio and public address systems.

Whether or not the soft answer turneth away wrath, it grateth less on the swollen ear.

Some of the things these spokesmen of government really mean nowadays might be a little less revolting if you got them in buttery ambiguities that you could translate into your own more genteel brand of billingsgate.

What's happened, of course, is that the technique of diplomacy has swung from one extreme to another, both equally offensive. Seems as though international bickering ought someday to settle down on a happy medium between Maypole dancing and TV razzing.

Try and Stop Me

James Melton, whose collection of old automobiles is one of the most complete in the country, also has a thousand anecdotes about them all, and the good old Model-T Fords in particular.

One concerns a farmer who bought a Model-T and drove it home proudly without learning how to stop it properly. His wife and sons, jumped in every direction as he careened, proudly up the drive. Into the garage—previously known as the stable—piled, and out the other side he catapulted right through the wall.

Assured that his father's pride was the only thing seriously injured, the oldest son guffawed, "Say Paw, why didn't you leave it in the gee-range?"

"Dad said it!" retorted the excited father, "why didn't you shut the door while I had it in?"

Robert S. Allen Reports

Olney Accuses Democrats Of Failure In Enforcement

Washington, April 26—Assistant Attorney General Warren Olney has made a significant speech which merits a great deal more attention than it's received, which is virtually none.

It is the first public discussion of what is destined to be a major Republican campaign issue.

The country, particularly the Democrats and labor, will hear a lot about it.

For what the head of the Criminal Division did in this overlooked address was to spell out in detail the scathing accusation that the Democrats did not enforce the anti-racketeering laws—particularly against labor racketeers.

"I think it is fair to conclude," Olney told the famed Commonwealth Club of California in his carefully-prepared speech, "that there is a direct connection between this lack of enforcement and the flourishing interstate racketeering which we found in many parts of the country."

Not until the Eisenhower Administration came into office in January 1953 did the Justice Department start combating this widespread evil. Following is the startling proof cited by Olney for his dynamite-loaded charge:

"The records show no criminal cases were filed in 1945, 1946, or 1947. In 1948, one criminal case was filed against six defendants, four of whom were found guilty and two were acquitted. No cases were filed in 1949, and only one in 1950, in which both a labor leader and a union local were convicted. Only one case was filed in 1951, with 12 defendants, all of whom were eventually dismissed. In 1952, no cases were filed."

"But in 1953, there were 19 racketeering indictments involving 44 defendants. In 1954, there were 37 indictments involving 65 defendants and 28 convictions. Approximately 50 investigations of extortion or bribery are now being initiated every month."

Everything about Olney's un-noticed address is politically significant. If there ever was a political time-bomb, this is it. It's loaded to the hilt with political TNT, as follows:

The Background — Olney has an impeccable record. He has never run for office, has given no indication of intending to do so, and has firmly shunned Washington's dangerous political and social shoals.

Also, the former professor of criminal law was a leading authority on racketeering before becoming head of the Criminal Division. As chief counsel of the

California Crime Commission, by appointment of then-Governor Earl Warren, Olney was the main-spring of this highly effective investigation.

Further, although one of the hardest-working Washington officials, Olney is among the least-known. He holds no press conferences; issues no statements, on or off the record; and the few speeches he has made have dealt wholly with his official duties and have been before non-partisan audiences—such as the Commonwealth Club, which is noted for its high standards and distinguished members, many of them business leaders.

It is irreproachable personal and political background that is the Sunday punch of Olney's speech.

Because all the prosecutions he discusses, to illustrate the Republicans' vigorous enforcement of the law against the Democrats' laxness, involve laborites convicted of racketeering.

The whole import of Olney's address is a high-powered indictment of labor gangsterism and Democratic failure to do anything about it. Also strongly implied is vigorous criticism of foes of the Taft-Hartley Act, long a union target.

Olney lauds this law as one of three "which constitute the principal weapons in the armory of the federal government in combating interstate racketeering."

Wily Talk — Also significant is the emphasis Olney puts on the key role of state and local authorities in effective law enforcement.

That is smart politics and smart administration. All too often, federal authorities ignore these officials. Giving them a pat on the back is certain to be appreciated.

Following are highlights of what Olney said about this and the other matters he discussed—about which much more will be increasingly heard from the GOP:

"When Attorney General Herbert Brownell took office, it was found that the weapons of the Justice Department to combat interstate racketeering were rusty, indeed. For years there had been virtually no enforcement of the salutary provisions of the anti-racketeering statutes. . . . The conditions in the St. Louis area are a good example of what we encountered. The construction business in the whole area was under a virtual reign of terror."

"There can be no mystery as to the general nature of the solution to the problem of organized crime. The answer is easy to state, but difficult to achieve: It consists in the day-by-day enforcement of existing laws, fairly and impartially, vigorously and relentlessly. . . . The battle against organized crime can only be fought and won by the police, the sheriffs and the prosecuting officers of the States. . . ."

Heavy Domestic Spending

—by H. G. Heller

One out of every five dollars spent by the Federal Government in fiscal 1956 will go toward domestic programs with economic or social objectives, it was reported today by the Tax Foundation, a private research organization.

Noting that the rapid growth of these programs in the past 25 should and should not do, the Foundation in a new study gives "a factual background for the decisions yet to be made on what the Federal government should do and what should be left to the states or to private initiative."

The Federal budget for the fiscal year beginning July 1, 1955 contains \$123 billion, or about 20 percent of the total, for various economic and other aid spending, according to the study entitled, Federal Economic and Social Programs, Fiscal 1956.

The total is broken down into six categories:

	(millions)
Aids to agriculture	\$2,335
Aids to business	1,033
Aids to veterans	4,610
Aids to home owners and tenants (excess of receipts)	176
Aids to labor	464
Programs providing general economic or social benefits	3,392
	\$12,368

The Foundation cites that the benefits are not necessarily limited to the category under which the expenditures are grouped. Moreover, expenditures not included in the listing, such as those for defense or foreign aid, may have various social or economic effects incidental to their main purpose.

Couple Files Damage Suit For \$288.33

A SUIT asking \$288.33 for damages to their auto has been filed by Mr. and Mrs. Frederick J. Danker, Stroudsburg RD3.

The suit was filed yesterday at the office of James Gould, county prothonotary, by George Robinson, attorney for the plaintiffs.

The Dankers allege that their parked car was struck and damaged by a truck-towed car on Aug. 30, 1953 at 4:30 p.m. on the road between McMichaels and Tannersville.

Operator of the truck was Joseph Miller, Stroudsburg RD3, the suit alleges.

According to the suit the Dankers' automobile was parked on the road on the date mentioned. Miller was allegedly operating a truck which was towing a sedan, also owned by Miller.

"At a point approximately even with the parked car, a wheel on the towed car allegedly came off and 'shot across the road hitting the plaintiff's car in the right front portion thereof.'"

Cost of repairing the Danker car was \$288.33, the suit says. This is the amount of damages asked.

1,250 Attend Final Session Of Assembly

THE CIRCUIT assembly of Jehovah's Witnesses was brought to a conclusion Sunday when James W. Filson, district representative of the Watchtower Bible and Tract Society, addressed an audience estimated at 1,250 in the Blue Valley Farm Show Auditorium at Bangor.

His public address, also heard by an overflow audience in the Kingdom Hall of Jehovah's Witnesses was the high point of the three-day assembly. Also speaking at the final session were J. A. Bunting, presiding minister of Clinton, N. J., who gave a summary of the Watchtower, and C. L. Coup, circuit minister, who spoke on "Keep a Tight Grip On the Word of Life." Mr. Filson's farewell talk was "The Happiness of Giving."

Activities on Saturday included ordination of 37 new ministers, marked by their baptism at the Roseto congregation's immersion pool. Mr. Filson's talk on "Baptism" explained that baptism symbolizes the complete dedication of the individual to do God's will.

"The New World Society in Action," a film picturing the work of Jehovah's Witnesses was shown Saturday night. Mr. Filson discussed the increase of Jehovah's Witnesses from a small group meeting in Pittsburgh 80 years ago, to about 600,000 ministers in 160 countries today.

Speaking on "Why A New World Is Possible," Mr. Filson declared that "A New World is not only a possibility, but is an absolute certainty. How can anyone doubt this when we find the Bible clear cut on the promise that Almighty God Jehovah will establish a new heaven and a new earth in which 'righteousness is to dwell' ", he continued.

Mr. Filson then pointed to many fulfilled Bible prophecies indicating that since 1914 we have been living in a period of time known as the "last days" or "the time of the end" of Satan's world system of things.

"The prophecies indicate that the final end of that wicked world will come in the days of those now living. It is the work of Jehovah's Witnesses today to proclaim this

CLUB LEADERS at the Spring meeting of the Monroe County Federation of Women's Clubs yesterday at the Penn Stroud Hotel included, left to right, Mrs. A. L. Leibenberger, state chairman of Community Affairs department; Mrs. Wallace Kern, vice president, northeast district; and Mrs. Foster Minnich, president of the Monroe County Federation.

Federated Clubwomen Give Two Years Voluntary Service \$1,923 In Money In County

The federated club women of Monroe County, members of the seven member clubs of the County Federation, during the past year, have contributed 15,997 hours of volunteer service and given \$1,923.50 in money for community, welfare and educational projects. The amazing total was presented at yesterday's afternoon session of the Spring meeting of the county federation by Mrs. Foster Minnich, county president, at the Penn-Stroud Hotel.

Mrs. Minnich's report broke down the hours and money to the various categories of service ranging from welfare agency campaigns for funds, to service in the Red Cross volunteers, and special projects of the club both within the county, the state, the national and on the international scene.

The report won high praise from Mrs. Wallace Kern, vice president of the northeast district. In her 11 counties, she said, partial report included 78,000 hours and \$44,272 contributed by the member clubs.

During the afternoon sessions reports were given by the club presidents: Mrs. W. H. Caulfield, Stroudsburg Woman's Club; Mrs. Elmer Veety, Progressive Woman's Club; Mrs. Elizabeth Rogers, Barrett Woman's Club; Mrs. Warren Mikel, Stroudsburg Junior Woman's Club; Mrs. Frank Rowe, Keystone Community Club; Mrs. Hazel West, Stroud Community Club; and Mrs. A. A. McAnbridge, Barrett Community Club.

Mrs. Lizzie Fetherman, past county president, gave the invocation in the afternoon and Donna Hornbrook was soprano soloist with Wallace Hornbrook as accompanist.

At the dinner meeting at the Penn-Stroud, Mrs. A. L. Leibenberger, of York, chairman of Community Affairs department of the state federation, pointed out that while individual women might not be able to tackle the big problems of delinquency and its cause, they could by the example in their own home promote religious education, provide an open house for their own children and their friends, and help other children through youth groups.

Miss Eleanor Decker gave a poetry reading, and also played accompaniment for the group singing.

Miss Stark To Speak On U.N. At PTA

Mount Pocono — The Parent-Teachers Association will meet Thursday night in the school house. Miss Lillian Stark, a member of the Stroudsburg High School faculty, will be the guest speaker.

Her topic will be "Familiarizing Our Community With the Accomplishments of the United Nations." Miss Stark has conducted many tours to the United Nations headquarters, both students and adults, and will show slides taken during these tours.

The nominating committee: Martin Brennan, Mrs. H. John Davis and Mrs. Norman May, will present the slate of officers for the annual election.

The public is invited to attend the meeting, whether or not they are members of the PTA.

Junior Members Entertain Auxiliary Of Legion Post

Poccano Lake. The Junior members of Wilson-Fischer Post No. 413, Auxiliary of the American Legion entertained at the meeting held at the post home last week.

It featured Barbara Christman, "First Robin," Nancy Selig, "Garden Flower," Mary Ellen Selig, "Happy Easter, Everyone," Marianne Major, "Waking-up Time," Margie Altomero, "Song of Easter Hare," Elaine Lutkowski, "Easter Jingle." The group also sang two songs, "Peter Cottontail" and "Easter Parade."

The program took the place of a minstrel rehearsal which will be held at a later date.

During the business meeting donations of \$5 each were given to Leonard Wood Memorial and Coatesville Hospital for Easter cheer. A letter from Raymond Trexler, of Scotland School, was read telling of his school activities and inviting the members to visit him. Sadie Christman, Pan-Americanism chairman, gave a short talk on Panama.

A bedside table is now available with the other hospital equipment maintained by the auxiliary for the use of anyone in the community needing it.

A letter of thanks was received from the Veterans Hospital in Wilkes-Barre for the cookies which the auxiliary took with them on their visit. Pauline Dunlap, coupon chairman, asked that all coupons be turned in at the next meeting.

Refreshments were served by Helen Lutkowski, Ann Berger and Freda Johnson with decorations in the Easter motif. Chocolate rabbits and decorated eggs were presented to the Junior members. Those present were Marian Altomero, Elaine Hanna, Sadie Christman, Alice Keiper, Sylvia Gibbons, Mary Dyson, Cora Altomero, Thelma Wilson, Elsie Selig, Dora Field, Ann Berger, Alberta Hayes, Dorothy Smith, Marian Selig, Bernice Dyson, Mary Major, Helen Lutkowski, Freda Johnson and Helen Keiper and the Junior members.

Silver Award For Local DAR Chapter

Jacob Stroud Chapter, Daughters of America, celebrated its 35th birthday with an award, the silver honor roll badge for service awarded the chapter at the Continental Congress just concluded in Washington, D. C. Mrs. T. Manning Curtis, regent, made the presentation, and told some of the highlights of the convention which she and Mrs. Milo Rasely attended as delegates.

Mrs. Harold C. Edwards, chairman of the Pennsylvania Luncheon at the Congress, told of the luncheon highlights, and Mrs. G. Raymond Hood in her National Defense talk outlined the national defense resolution passed by the delegates.

Mrs. Horace G. Walters read an account of the first Continental Congress in 1892 when Mrs. Benjamin Harrison was President General.

Miss Janet Snyder of East Stroudsburg High School was guest soloist, with Miss Sarah Hostetter as accompanist.

At the birthday tea which followed Mrs. Hood and Dr. Edna Rosenkrans poured and the other past regents served as hostesses.

Just Between Us

—By Bobby Westbrook

Surely, one day was never so busy—but then I think that about every day. And, at that, I see only the results of weeks of effort and planning and hours of telephoning.

Anyway, the results are pretty impressive, and running from one to the other I can only admire. At least I don't have the trouble that Mrs. Wallace Kern was talking about at the county federation meeting. In a talk full of very practical suggestions, she mentioned that a program had too long.

"The mind can't absorb what the seat can't endure," she said, perfectly dead-pan. It about broke up the meeting for the moment. From the report of hours spent and money raised by the county federated clubs, however, I should judge that not many of the members could spend much time just sitting around.

The Music Parents weren't just sitting around last night, either. When they weren't eating, they were on their way to or from the smorgasbord table. That was really a meal, and the Holmgrens, mother and children, were pretty as pictures in their Swedish costumes. So was the smorgasbord table, before that crew of Music Parents got in and wrecked it—which of course is the proper thing to do with smorgasbord.

However, they ate so heartily, that the account of their meeting will have to go over to tomorrow—along with twenty other stories waiting their turn. I hope I live to see them printed. From the rumors of lynching parties being organized in Brodheadsville, Kunkletown, Tannersville, Saylorsburg, Water Gap and Barrett, all indignant about their own stories, I sort of wonder if I will.

The conference, one of 100 planned by the FBI for various sections of the nation, will be held in American Legion, 415 North Washington Ave.

Chou Wants To Negotiate Terms Of Formosa Surrender; U.S. Should Learn What Price Is

By J. M. Roberts

Associated Press News Analyst Chou En-lai's reiteration of Red China's "sovereign right to liberate Formosa" is clear evidence that his talk on Saturday about direct negotiations with the United States had no real meaning.

Mohammed Ali of Pakistan, after lunching with Chou following the close of the Bandung conference, says Chou thinks there is still a slight crack in the door leading to negotiations.

Chou's own statements, however, can only mean that he is willing to negotiate the terms of Formosa's surrender, and nothing else.

As for reports from Bandung that Chou has indicated some robberies, burglaries, and larcenies were committed in the United States.

The conferences are designed to combat these figures, Mr. McCabe said that in the past three years a series of conferences have dealt with pertinent crime problems of the time. This year's will deal with the bank robber and burglar, based on 1954 crime reports.

Purpose of the meeting is to discuss and analyze these particular crimes and to develop new techniques of dealing with these situations through coordination of ideas and suggestions. There will be no featured speakers and meetings will be handled on a panel basis to provide for mutual exchange of information.

Bankers, state and local police, sheriffs will join the FBI at the Scranton conference.

slight chance for the release of American fliers convicted of espionage, that too must be taken with reservations until he names his price. There is a bare possibility that he would go through with it as a continuation of the sweetness and light show he put on for the benefit of the Bandung conferees, but that would be paying a concrete price for a chancy bit of goodwill. The best estimate still is that the United States will have to pay a concrete price of its own before this matter is settled.

One bit of truth did slip through Chou's lips on the subject of relations with the United States when he said the Chinese people don't want war with her. The Chinese people don't want war with anybody. As to whether, as Chou said, they are friendly to the American people, you can pay your money and take your chances. The American people have frequently displayed friendliness toward them. But Americans did not entirely escape the antiforeign movement in China before the Reds, and it has been greatly intensified since then.

In spite of all these things, an argument can be made for pursuit by the United States of Chou's offer to negotiate. It wouldn't look nice to sit down with representatives of an unrecognized government and talk about Formosa behind Formosa's back. But it would be a good thing to try to learn if Chou has a price for peace, and what it is, and whether Red China is willing to pay anything at all herself.

Despite her commitments to Chiang's Nationalist government, the United States is still big enough and strong enough to act as an honest broker.

A demonstration of her willingness to try would go far to balance the impression of reasonableness made by Chou at Bandung, and there seems to be no question that he did make such an impression, despite the overall ability of the anti-Communist nations to prevent him from incorporating the conference into his own propaganda machinery.

TODAY'S "Battle of the Boroughs" at Gordon Giffels Field should be drawing more pre-game interest than any contest of its type held between East Stroudsburg and Stroudsburg in many years. Today's encounter is more than a baseball game—it's a deciding factor. The Cavaliers and Mountaineers are all even going into today's baseball battle, the former having won the Thanksgiving Day football game and one of three basketball battles. Stroudsburg on the other hand evened matters by winning the basketball series last winter, two games to one.

Now with the athletic scales well balanced the two schools enter their fifth and final event, East Stroudsburg has split the record right down the middle in two outings, while Stroudsburg took it on the chin in its only scholastic tussle to date. Both teams feature approximately the same number of veteran players—the type boy who is interested in the game beyond the six weeks it takes to complete the spring schedule in high school.

Bill Sommers is fresh from a three-hit masterpiece against Packard High, a game won by the Cavaliers, 2-0, and is scheduled to toe the rubber against the Mountaineers today. Stroudsburg on the other hand will probably counter with Roger Ray, freshman right hander who earned the starting assignment with a brilliant relief effort against Palmerton on the same field last Friday afternoon. Otherwise the two lineups will be intact.

Certainly the largest crowd that will witness the two clubs in action this season will be on hand today—providing the weatherman is in a better frame of mind. This is the game where past performance means very little. Youngsters play better than they know how and the verdict usually isn't in the won or lost column until the final out is registered. This is the type contest in which the unsung member of the squad usually rises up to be the hero.

Stroudsburg played a regulation game with the Faculty sometime ago, enabling each team to have two contests under its belt going into today's important battle. Every member of both clubs should have licked the stage fright by this time and should be ready to settle down to some solid baseball. The two teams should play vastly better ball than they did last season when they clashed on opening day.

Many of the fans who watched Crowe's Insurance and Capuro's Service battle for the Delaware Valley League bowling championship on Saturday thought for a few fleeting moments that the East Stroudsburg keggers would make up the huge 212-point deficit that hung on their necks prior to the opening of firing on Saturday—but such wasn't to be the case. Capuro's club constructed its large lead on Friday night in a three-game match at the Fleas Club, in Easton.

Crowe's keggers tied Capuro's for first place in the final standings of the Delaware Valley League, but couldn't quite make the grade in the roll-off and finished as the number two club in the standings, 185 pins behind the pace setter. Congratulations are in order for Jack Darr, Crowe's anchorman, who won high average laurels in the league this season. Additional congratulations are in order for Jake Nittel, who tied Capuro's Doug Hawk for second place in the average race.

It was strictly tough that Crowe's club couldn't make the grade this season. At the beginning of the campaign many self styled bowling experts said that the East Stroudsburg keggers didn't have a chance in this season's race. But right up to the final game the Crowe contingent was very much in the championship battle. Even though it lost this season, the East Stroudsburg team owns more Delaware Valley League bowling championships than any squad in history. If the league had followed its rules to the letter, the championship match would have been held a week previously.

Stroudsburg High School's girls Varsity "S" Club initiated its new members yesterday. The Pocono Mountains League and Saylorburg baseball club both lost a true friend in the recent passing of Clarence Budge. He was a true pioneer for both organizations. This column is hopeful that the entire PML will do something in the way of honoring the former baseball fan during opening day ceremonies next Sunday.

ESSTC Downs Scranton In Opening Track Meet, 65-61

Bad Weather Fails To Halt Warriors

EAST Stroudsburg State Teachers College splashed through the water and mud to open its track season with a thrilling 65-61 victory over the University of Scranton yesterday on the Normal Hill oval.

The two teams waged a nip-and-tuck battle right down to the wire and a complete sweep by the Warriors of the top three places in the broad jump swung the verdict in favor of the host contingent.

Dick Berish, Dan Donovan and Lawrence Morgan finished in that order in the broad jump to save the day for the Normal Hill pupils of Coach Howard DeNike.

ESSTC won only five of the 14 events, but did enough damage with second and third places to swing the verdict in favor of the home club.

Ed McAndrew, son of the Scranton coach, threatened to break the ESSTC high jump mark, but a combination of wet grounds, rain and cold winds combined to halt the Normal Hill sophomore when he attempted to clear the bar at six feet, four inches.

The loss was the second straight for Scranton as the Royals opened with a loss to Albright, in Reading.

ESSTC will attempt to make it two straight wins when the Warriors oppose West Chester tomorrow, on the latter's home track.

Summary follows:

100-Yard Dash—Matthew Brown, Scranton, ESSTC 10.6; Art Bager, ESSTC 10.6; 200-Yard Dash—Garry Panover, ESSTC 22.4; Walter Winkler, Scranton, ESSTC 22.4; 400-Yard Dash—Burt Hughes, ESSTC 54.0; George Scranton, Bob Semmel, ESSTC 2:11; 800-Yard Dash—Don Griffith, ESSTC 5:17; Joe Nicols, Scranton, 4:53; 120-Yard High Hurdles—Emanuel Garcia, Scranton, Garry Keller, ESSTC 2:01; Wolfgang, ESSTC 1:29; Shot Put—Bill Hollenbeck, Scranton, 28.0; Ray Scranton, Dick Berish, ESSTC 28.0; 6 1/8 lbs. Poles—Dave Persons and Don Franks, ESSTC (tie for first); Joe Sloan, Scranton, 16 feet; High Jump—Ed McAndrew, ESSTC 6 feet; 200-Yard Dash—Garcia, Conrad, Jack Flader, ESSTC 11:24; Javelin—Craig Prosser, Scranton, 100 yards; ESSTC 100 yards; ESSTC 107 feet, 25 inches; 220-Yard Low Hurdles—Garcia, Keller, ESSTC 2:27; Discus—Hollenbeck, Berish, Dick Axtner, ESSTC 130 feet; Broad Jump—Berish, Donovan, Morgan, 19 feet, 10 1/2 inches; 220-Yard Dash—Brown, Saylor, Panover 2:27.

Dodger Pilot Draws Fine

BROOKLYN, April 25 (P)—Brooklyn Dodger Manager Walter Alston was notified by the National League front office today he had been fined \$50 for his run-in with Plate Umpire Babe Pinelli in last Friday night's game between the Dodgers and New York Giants.

It marked the first time in his career that a fine had ever been levied against the former school teacher, either as a player or manager. Alston went through the entire 1954 season, his first in the majors, without a single ejection.

The infraction resulted from an argument Alston had with Pinelli in the eighth inning when the veteran arbiter called Don Zimmer of the Dodgers out at home on a squeeze bunt by Jackie Robinson.

Referee Takes Verbal Swing At Commission

PHILADELPHIA, April 25 (P)—Referee Willie Clark resigned from the Pennsylvania State Athletic Commission staff today, accusing Commissioner Alfred Klein of playing favorites in selecting fight referees.

Clark, in his letter of resignation, accused Klein of "a kind of favoritism like we never had before." Klein, who received the letter today, said he had no comment.

Clark protested Klein's designation of Zach Clayton as his "top referee." Klein said a week ago that he considers Clayton his No. 1 referee in Pennsylvania and wanted to give him a windup assignment every week, while scattering the rest of the assignments among others of the staff.

The veteran Clark also questioned Klein's qualification to judge a referee's ability, saying in part:

"I was a member of the United States boxing team in the 1920 Olympic games. I have been a boxing instructor, I trained and managed fighters. I have been a referee for over 25 years without anyone questioning my ability, impartiality or honesty.

"There isn't another man on your staff more qualified than I am. But how would you know about that? You haven't bothered to watch me work even once. The only time I received an assignment since you became a commissioner was for two preliminary bouts ... on a night when you weren't there."

Monroe County League Lists Two Important Baseball Tilts

POLK AND COOLBAUGH will play the role of hosts in the Monroe County League baseball wars today, at 2 p.m. Tobyhanna Township, currently sporting one win and two defeats, will battle Polk at Kresgeville at 2 p.m. Polk has lost both of its league contests to date.

Carter To Risk Title Against Smith

NEW YORK, April 25 (P)—Lightweight champion Jimmy Carter will defend his title against Wallace (Bud) Smith of Cincinnati at the Boston Garden, June 1, promoter Jim Norris of the International Boxing Club said today. The 15-rounder will be telecast coast to coast but the New England area will be blacked out.

It will be the 11th title scrap for the 21-year-old Carter, first champion to lose and regain a world championship twice. The hard-hitting New Yorker earned that unique distinction when he stopped Paddy De Marco in the 15th round in San Francisco, Nov. 17. He had lost the diadem to DeMarco in New York, March 5, 1954. Previous to his two-fight series with DeMarco, Carter lost his title and regained it from Lauro Salas.

Smith, 26, is the fifth ranking contender, National A.A.U. champion in 1948, he turned pro that year and has compiled a record of 31 victories, 11 losses and five draws. A solid left hooker, he has 18 knockouts to his credit. He has been stopped once, Welterweight Joe Miceli halted him in five rounds in Cincinnati Feb. 20, 1954.

Carter beat Smith in a 10-rounder in Cincinnati on March 28, 1950, a year before Jimmy won the title for the first time by stopping De Williams in the 14th round.

Although TTHS has lost two of its first three games, the pupils of Coach Ronnie Davis form one of the toughest clubs in the circuit this season. TTHS recently forced league leading Pocono into extra innings before dropping a 7-6 decision.

Second place Chestnuthill, winner of two of three circuit outings to date, collides with Coolbaugh at Tobyhanna. This contest is also on the books for 2 p.m.

Coolbaugh lost its only league outing thus far this season and is scheduled to play three games this week.

Chestnuthill is faced with the necessity of winning all of its remaining five battles to stay in the thick of the current pennant race.

Pocono, out in front of the pack at the present time with three wins and no defeats, enjoys an open date on the schedule today.

Polk meets Coolbaugh at Tobyhanna tomorrow and Pocono plays host to Coolbaugh at Tannersville on Friday.

Little League Meeting

MT. POCONO — Members of the Mt. Pocono Rotary Club entry in the Pocono Little League are scheduled to meet at the team's home field today at 6 p.m. The meeting is open to officials, players and all interested parties.

Bowling League Opens

MIXED DOUBLES League bowling action will get underway at the Harmon's Recreation today at 7:30 p.m. All teams must be ready to bowl at that time.

Revised School Health Setup Is Proposed

HARRISBURG, April 25 (AP)—An over-all revision of the Commonwealth's school health program was offered in the Senate tonight with bipartisan sponsorship.

Under the proposal, the State Health Department would have exclusive control of the plan at the state level. The Public Instruction Department is now in charge.

School children at present are given physical examinations every two years. The revised program would require comprehensive examinations on entry in school, at about the age of 11 and at about 15.

Vision tests would be given every year, hearing tests every two years, height and weight checked once a year and a chest X-ray taken on admission to high school.

The revised program was drawn up on the basis of recommendations by the Joint State Government Commission, which made a survey of the school health program for the Legislature.

State reimbursement to local school districts would be on the basis of \$1.20 per pupil examined. The bill's sponsors are Sens. Paul L. Wagner (R-Schuylkill) and John H. Dent (D-Westmoreland).

Another bipartisan sponsored measure dealing with education would increase minimum pay scales for faculty members at state teachers colleges from \$3,500 to \$4,000 a year with 10, instead of five annual increases of \$100.

Other new Senate bills would: In cases where proposed incorporation of a borough involves land from more than one township, require signature of a majority of property owners in each township affected to sign the incorporation petition—George B. Stevenson (R-Clinton), Harold E. Flack (R-Luzerne), Frank Kopriver Jr. (R-Allegheny), Charles R. Mallory (R-Baile), Joseph J. Yosko (D-Northampton), Eustace H. Bane (D-Fayette), John J. Haluska (D-Cambria).

Permit corporations to acquire land by eminent domain when it is needed to carry out construction ordered by the State Sanitary Water Board under the Commonwealth's clean streams program—Albert R. Pechan (R-Armstrong), John H. Dent (D-Westmoreland).

Americans take out about 40,000 new patents every year.

DEATHS
MICHAELS, Clifford B., of Easton, April 24, aged 58 years. Relatives and friends are respectfully invited to attend funeral services Friday, April 29 at 2:30 p.m. from the F. W. Schmidt funeral home. Viewing Thursday 7 to 9 p.m. SCHMIDT (Nazareth)

Stocks Climb In Face Of Margin Boost

NEW YORK, April 25 (AP)—Buying enthusiasm sent the stock market up today and completely blanketed early selling induced by higher margin requirements.

Gains at the finish ran from 1 to 3 points in many key areas while losses were small. The best performance was shown by steels, atomic issues, motors, and railroads. The aircrafts were lower. Late Friday, the Federal Reserve Board raised margins to 70 per cent from 60 per cent. On Jan. 4 margins were hiked to 60 per cent from 50 per cent.

That means you now have to put up a minimum of 70 cents of your own money for each dollar's worth of stock you buy and borrow the rest from your broker.

The Associated Press average of 60 stocks was up 50 cents at \$163.30 with the industrial and railroad components each up 50 cents and utilities up 40 cents.

There were 1,210 individual issues traded of which 543 advanced and 432 declined with 66 new highs and 19 new lows for the year touched.

Volume amounted to 2,720,000

shares as compared with 2,800,000 shares traded in Friday's sharply lower market.

The American Stock Exchange was rather mixed. Volume on the American amounted to 750,000 shares as compared with 920,000 shares traded Friday.

The bond market was slightly higher, U. S. government issues in the over the counter market were unchanged to lower.
